## PROFESSIONAL SUMMARY

---

Python Full Stack Developer with hands-on experience building scalable web applications using Django, Django REST Framework (DRF), React.js, and MySQL. Skilled in REST API development, JWT Authentication, database design, responsive UI development, and deployment. Seeking an entry-level Software Developer role.

## TECHNICAL SKILLS

---

**Programming Languages:** Python, JavaScript (ES6+), HTML5, CSS3

**Frameworks & Libraries:** Django, Django REST Framework, React.js, Bootstrap 5

**Backend & APIs:** RESTful APIs, CRUD Operations, MVC Architecture, JWT Authentication

**Databases:** MySQL, PostgreSQL, SQL Query Optimization, Database Schema Design

**Tools:** Git, GitHub, VS Code, Postman

**Core Concepts:** Object-Oriented Programming (OOP), Responsive Design, SDLC, Agile Methodology

## TECHNICAL PROJECTS

---

**Trip Pilot AI – AI Powered Full-Stack Travel Planner** | React.js, Django, MySQL | [GitHub](#)

- Built a full-stack AI-powered travel planning web application using React.js and Django REST Framework, featuring personalized itinerary generation, trip management, expense tracking, and RESTful APIs.
- Implemented JWT authentication with access/refresh tokens, token rotation, and token blacklisting, while integrating Gemini API and OpenWeather API for AI-powered itinerary generation and real-time weather updates.
- Developed interactive travel maps using Leaflet.js, expense analytics with Recharts, and community features including itinerary sharing, upvoting, and itinerary cloning using Git and component-based architecture.

**Hotel Room Booking Web Application** | React.js, Django, MySQL | [GitHub](#)

- Built a full-stack hotel room booking web application using React.js and Django REST Framework with RESTful APIs, token-based authentication, and role-based authorization for room and booking management.
- Developed a responsive frontend using React Router and Context API, implemented date-based availability filtering to prevent double bookings, and deployed the application on Render.

**Personal Portfolio Web Application** | JavaScript, HTML5, CSS3 | [GitHub](#)

- Built a fully responsive, mobile-first portfolio with cross-browser compatibility across Chrome, Firefox, Safari, and Edge.
- Integrated dynamic project showcase and contact sections using React.js component architecture.

## TECHNICAL TRAINING

---

**Python Full Stack Developer Trainee** | Login360 Institute, Chennai *Dec 2025 – May 2026*

- Completed 300+ hours of Full-Stack Development training, gaining hands-on experience in Python, Django, React.js, MySQL, HTML, CSS, JavaScript, and Bootstrap.
- Developed full-stack web applications by building RESTful APIs, implementing CRUD operations, and using Git/GitHub for version control following Agile practices.

## EDUCATION

---

**Bachelor of Engineering — Mechanical Engineering** | Builders Engineering College, Nathakadaiyur *2022 – 2025*  
**CGPA: 8.1**

## CERTIFICATIONS

---

- Python Full Stack Development Certificate – Login360 Institute (Certified, 2026).
- TCS iON Career Edge: Young Professional (Certified, 2026).
